

# 2223 P.1 Fashion Show

## Preparing students for **future success**

✦ This year, our school has taken part in the CUHK Small Class Teaching Support Programme. Through various teaching means and activities, like card games, songs, realia and authentic daily examples, we try to motivate our P.1 kids to actively participate in listening, reading and using English in real context. We positively encourage our students to discover, learn and make use of the target language.

In our classroom, mistakes and errors are valued and celebrated. Teachers provide more opportunities for discussion and interaction, and give students more responsibility for their own learning. We work together to help each other improve using skills like editing and proof-reading, aiming to help students develop a growth mindset, build resilience, and foster positive relationships with their peers.

At the end of the unit, a fashion show is organized to showcase and celebrate students' hard work.

### An Embarrassing Experience

Peter fell asleep in class yesterday when his classmates were listening to the teacher attentively. Peter dreamed that he met a lovely shark. He played with it happily and fed it with fish.

They dived into the sea. Peter rode on the shark and swam joyfully. After a while, the shark had too much fun and it swam faster and faster. Peter felt scared. He shouted loudly, 'Help! Slow down, please!'

Suddenly, Peter fell down on the ground from his chair. He heard loud laughter around. When he looked around, he found that the teacher was staring at him angrily and the classmates were laughing at him. The teacher said, 'You shouldn't sleep in class! You should pay attention in class!'

It was an embarrassing experience for Peter.

Dear Ms Blessing,

How are you? Thank you for your sharing. I hope you and your family all stay healthy and take care of yourself too. It is because people get sick easily during the pandemic.

We cannot go travelling frequently under such conditions neither so I am going to share my experiences of travelling with you. I have been to England twice. I went there in 2014 and 2017. I went to the beach and I built sandcastles. It was so much fun to be honest.

Since the pandemic is getting worse and more people were contracted, so the government decided to stop all the airplanes flying. I am going to tell you where I have been to during the pandemic. Last month, my family and I went to Ocean Park. We played on the roller coaster, pirate ship and Ferris Wheel. I have been there twice. I was so excited and scared. This summer, my family and my friends went to Ma Wan Beach with me. My friends and I swam and built sandcastles. It was fun and relaxing.

Do you like my sharing? I look forward to hearing from you again!

Best wishes,

### An Accident At Mid-Autumn Festival

Last week, I had a big meal with my relatives at Mid-Autumn Festival. There was a lot of food. While we were having dinner, 'What are we going to do?' I asked. My mom suggested we could light lanterns and eat moon cakes.

After having dines, I played with lanterns with my brothers and sisters. We enjoyed it very much. My parents were talking with their relatives while they were having some festival food such as moon cakes and starfruit.

While I was playing with lanterns, my lanterns was on fire. My hands were trembling and I was scared at that moment.

Luckily, my father used water to put out the fire and no one was injured in the end. Since that day, I will never play with lanterns which make of paper because I don't want it will happen again.

### A New Festival

If I could create a new festival, I would suggest a festival called 'Cat Festival'. This festival could be on May lasts for five days.

In this festival, people can go to the cat café and play with cats. Moreover, people can eat cat shaped food and fish. Can you guess why I like this festival? It is because I like cats and they are good friends of people.

### Christmas In Hong Kong

Christmas is one of the biggest festivals in Hong Kong. It is celebrated on 25th December to remember the birth of Jesus Christ. I love to celebrate Christmas with my friends and my parents.

On Christmas Eve, Christmas trees are decorated at the shopping malls and department stores. Homes are decorated with bright and colourful lights. People buy gifts for their loved ones and sing Christmas carols. On Christmas Day, we throw a party with our friends and family. In the party, we exchange Christmas presents and have a Christmas feast. Boxing Day is my favourite day because we can unwrap our Christmas presents. Every year I get some presents that make me surprised.

Before Christmas Day, candy cane and turkeys are bought at the supermarkets. Children love candy cane very much because it is as sweet as honey. Moreover, fruit cakes and gingerbread cookies are made at home. They are tasty.

I look forward to Christmas every year because it is exciting and we can eat Christmas turkey and Christmas cake!

### An Accident At Mid-Autumn Festival

I had an accident at Mid-Autumn Festival last week. At Mid-Autumn Festival, Mum suggested going to visit our relatives and have a reunion dinner with them. I was excited to see them. At their house, I saw a lot of food on the table. I rushed to get a seat and shouted. 'Hey! Come take a seat! I can't wait to eat!' During eating, I asked my mom, 'What are we going to do after we finish eating?' 'We can either light the lanterns or eat moon cakes.' Mom said. I said, 'Let's light the lanterns!'

Then, we went to the rooftop. The adults were eating while my cousins and I were playing with our lanterns. The adults were eating starfruits and chatting about their life. Cousins and I lit up the lanterns.

Suddenly, something unexpected happened. My lanterns went on fire. Cousins and I were all frightened and started screaming. My parents noticed the fire and quickly went to get the water buckets.

Fortunately, my mom came in time and poured the water all over me. It was very scary. In the end, we were all okay, thanks to my mom. After going through all this, I learned I need to be careful with everything.

At that night, my family and I were having a wonderful dinner with our relatives. I asked, 'What are we going to do after we finish our reunion dinner?' Mom said, 'We will light the lanterns and eat moon cakes.' At that time, everyone was happy and excited.

Later, we went to the rooftop. I was lighting the lantern while I was walking around with my cousins May and Ben. Mom, Dad and Aunt were eating the yummy starfruit. We could see the wonderful moon. We were amazed.

Suddenly, my lantern was on fire! I was frightened. Dad saw the problem and rushed to get water. It was so lucky that Dad is a fireman or else we were going to die. Dad shouted, 'Put down the lantern and stay away! I got this!'

At the end, the fire was out and everyone was happy that no one was hurt. It was all because Dad saved us! So from that day on, I would never play with fire. We need to be careful to do everything because we don't want to get hurt.

### Wendy's Dream Job

One day, Wendy is in her classroom and she is having an English class. The teacher says, 'What do you want to be when you grow up?' Wendy hands up her hand and says, 'I want to be a singer when I grow up because I have a nice voice and I love singing too.'

If she becomes a singer, she will join a lot of singing competitions, play the guitar and dance. Wendy will sing on the stage, record songs in the studio and in the charity show. She will play the piano, the violin and the guitar. Wendy feels glad and she thinks herself is meaningful.

Singers need to be outgoing because they will be interviewed by the reporters. They need to be brave because they need to sing in the big show, big stage and big competitions. They need to practice singing every day so they need to be hard-working. They need to be creative so that they can compose some new songs.

Wendy hopes she will be a famous singer when she grows up. To achieve the dream job, she will take lessons to learn how to play guitar. She also needs to practice singing and playing musical instruments every day. She will study hard because she wants to be a good singer. She will join the choir to improve her singing skill.

### An Accident At Mid-Autumn Festival

Last week, when our family had a reunion dinner for Mid-Autumn Festival, my little sister, Sally asked, 'What we were going to do?' Mum said, 'Adults are going to the rooftop to enjoy mooncakes and starfruit. Children can bring lanterns and play up there.' 'Sounds like fun!' said my cousin.

Later, they went to the rooftop. The adults were chatting while the kids were playing around with their lanterns. Everyone was having a great time.

Suddenly, I felt a hot air next to me and I saw orange lights. I turned around and saw a horrifying sight. Sally's lantern caught on fire! Sally was so frightened. Therefore she threw the lantern on the ground and ran downstairs.

Thankfully, our uncle was fast and clever. In the blink of an eye, he sprinted downstairs and filled up a bucket full of water. Then he poured the water on the fire. Luckily, the fire was not big, so the bucket of water was enough. I still couldn't believe my eyes. Our uncle saved us from a fire! He was a hero. Afterwards, Sally apologized for throwing the lantern, but everyone forgave her.

After this accident, I learnt that we should be calm and handle things peacefully. I hope this will never happen again. But if it does, we would know what to do.

# 'GIANT' LOVE For Everyone

After a few years of suspension due to the pandemic, our English Musical Team finally came back! This year, 16 boys and girls from P.4-6 formed this amazing team and they had 1-hour practice every Friday from the beginning of the school year till now. The name of the story is called '*The Selfish Giant*'.

The team was so thrilled to get a chance to perform two shows on 29th June, 2023 and there were 4 levels of students (almost 600 students!) watching their live performances in the school hall or online in the classrooms. That was an unforgettable experience for them. They enjoyed their own shows very much because they have put so much effort in the training and rehearsals. They all did well in the shows. Bravo!

## English Ambassadors (2022- 2023)

In this activity, students develop communal respect for one another and cultivate a more positive attitude towards learning English. One of the remarkable aspect observed in this team, is the attitude of team spirit during the puppetry project & more. The most effective teamwork happens when individual team members harmonize their efforts and work toward a common goal.

That was so much fun!

# Friday English Activities

This year, the English Department got extra funding from the school and we hired English-speaking teachers to hold a series of courses for students on Friday. Students were selected by teachers through interviews, class observation and exam performance. 12 classes have been organized and 150 students were recruited to attend our classes. The after-course evaluations showed that most students enjoyed the lessons and they valued the chances to learn with different classmates and talk with the teachers in English.

## Good Morning To You!

Have you greeted your classmates in English at the school gate every Thursday morning? In order to provide more chances for students to use English in their daily life, we invited two students from each class to be our Morning Ambassadors for the English Speaking Day this year. Their duty was to greet our parents and students in English every Thursday. They were so eager and proud to represent their class to do the morning greetings. They said 'Good morning!' & 'Have a nice day!' to everyone with smiles and confidence. Next time when you see them outside, make sure you say 'Good morning!' out loud to them.
